type script	redux toolkit

PROJECTS

Social Media Platform 🔗
Developed a comprehensive system for post management, including creating, editing, and deleting posts. Built user authentication features such as Login, Sign Up, and Password Change for a secure user experience. Implemented functionality to display all posts with detailed views for each post. Added the ability to copy and share post links effortlessly. Designed a robust data management system to ensure high performance and scalability. Focused on a user-friendly interface and seamless interaction for efficient navigation and usability , tools I have used (redux toolkit , type script , next.js , mui)

Ecommerce Fresh Cart 🔗
Home Page with two sliders , cart with (adding item to cart , remove item from cart , edit count of item , delete cart) , online Payment and Cash on delivery , user Orders Page , Favorite Products (Adding item to Favorite , remove Item from Favorite) , Category page with Category Products , Brand page with Brand Products , Products Page with Product Details , Search In Products , All Pages have strong Responsive Design , Strong State Management and best Performence.

Movies 🔗
A user-friendly platform that allows users to discover, rate, and review movies.

Yummy 🔗
A recipe website is a platform where users discover diverse cooking instructions

LandWind 🔗
A simple landing page with HTML And Tailwindcss

Crud 🔗
Create , Reading , Update and Delete
